Service Overview

Data Protector provides;

- **100% secure data sharing service with automatic remote Backup**
- **All data is stored at 2 geographically separate data centres**
- **“Enterprise” concept to identify each company uniquely**
- **“Filing Cabinet” concept for storing and sharing data.**
- **5 levels of authentication to access data**

Service Overview

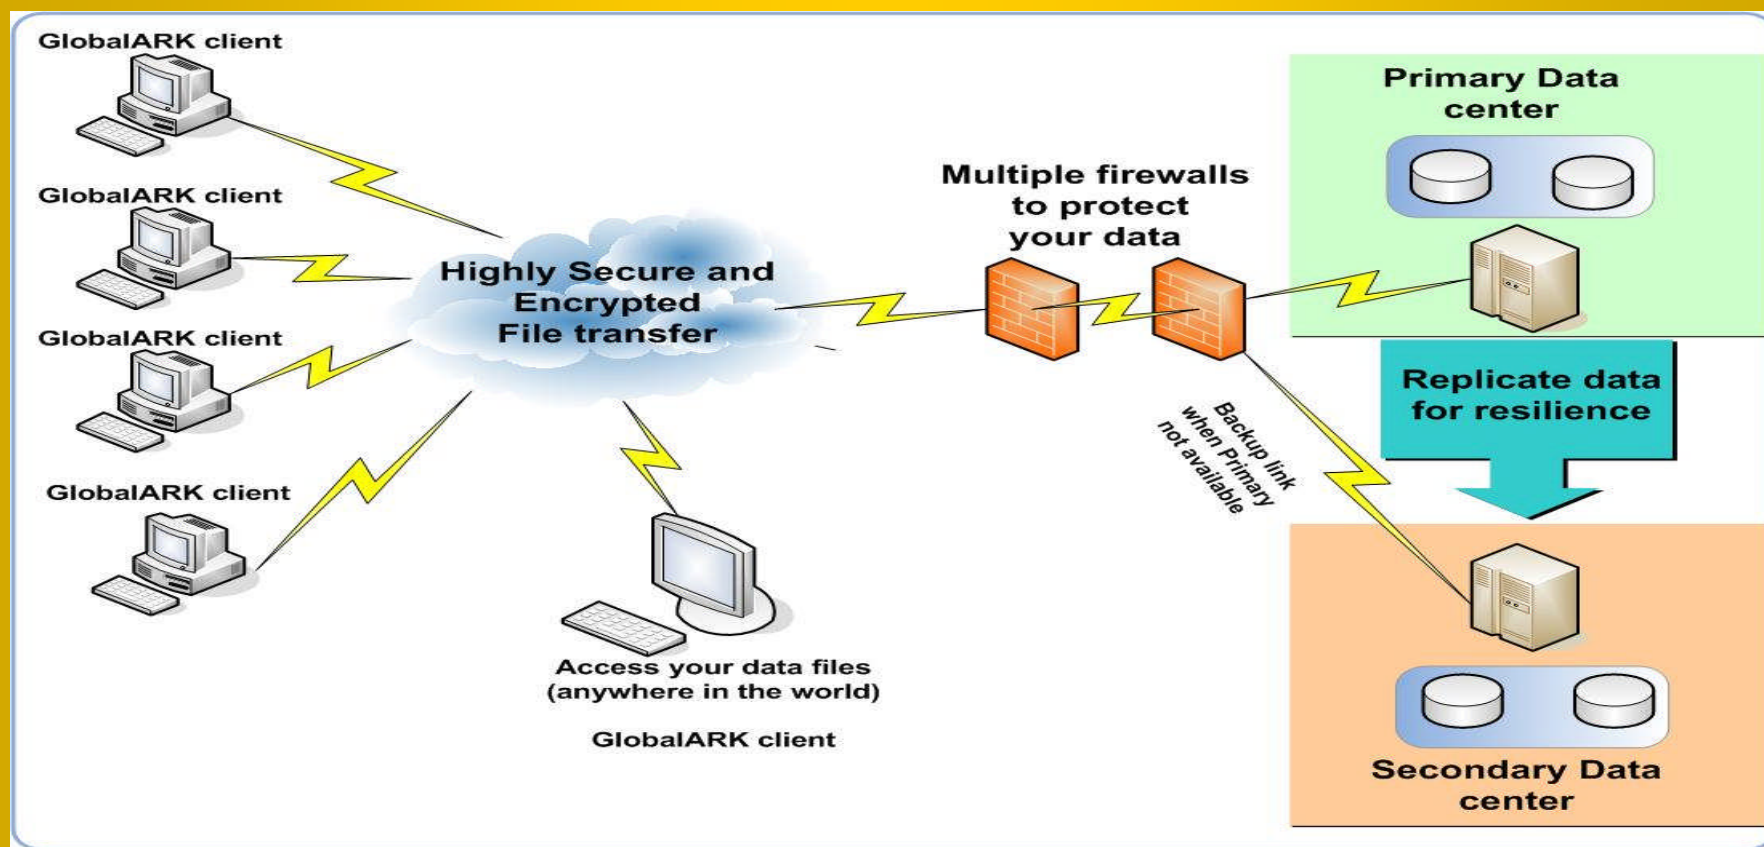

Built-in features;

- **Enterprise Security to control Cabinet and Data access**
- **Multiple encryption pass-phrases to control access to different data**
- **Flexible Scheduling (allows for multiple backup schedules).**
- **Continuous Data Protection (up to the minute)**
- **Data Retention and Deletion policies**
- **PRE and POST backup command scripting**

Protecting Your Data
No Matter What!

Overview of our Environment

Benefits

- **No unsecured exchange of data via unencrypted E-mails, CD's, DVD's, Tapes or USB drives.**
- **Access data securely from anywhere**
- **All Data can be securely shared and access audited;**
 - **internally by your company staff and**
 - **externally by your customers.**
- **Enables desktops and laptops to be used as computing devices and not storage devices.**
- **Simple user “Drag and Drop” interface.**
- **Easy and fast recovery from any data loss or corruption.**

Benefits

- **All data is transferred encrypted with a private pass phrase(s) at the individual file level.**
- **All data is stored in a Compliant format to meet strict data Retention and Disposal regulations.**
- **Allows customers with multiple sites to centralise and reduce their data backup and sharing costs.**
- **Bulk Upload and Download facility to expedite initial Backup or a Restore in case of a disaster**
- **Archive data function to reduce computer disk storage by up to 50% thus postponing storage upgrades**

Benefits

- **Removes the reliance on staff to run the backups and manually store away tapes / cd's / dvd's / external hard drives offsite.**
- **Offsite Backup and Archiving of your business applications and associated data**
- **Allows files to be securely shared that are too large to be emailed**
- **Prevents duplication of files in the filesystem and email storage**
- **Switches automatically to 2nd Data Centre should primary data centre become unavailable**
- **Retention of source system directory structure and file permissions**

Protecting Your Data
No Matter What!

Pricing

Includes;

- **GlobalARK Data Protector service**
- **Unlimited clients**
- **Replication to 2nd Data Centre**
- **24 X 7 Support**
- **Ongoing software updates**

Review

- **100% secure Data Sharing service (No compromise) with automatic Backup and Archiving**
- **Fast restoring of data**
- **Continuous Data Protection**
- **Highly Redundant infrastructure at both computer centres.**
- **Computer centres geographically separated in 2 Australian states for Disaster Recovery and resilience**
- **Reduces reliance on people to perform backups and send/retrieve backup media to/from an offsite location**
- **Secure Global access to your data as it is ALWAYS online**
